

KABI Mobil Olie Skimmer

Dansk Design - CE godkendt.

- Aluminium skimmerhus 70mm x 70mm x 70mm.
- Strømforsyning 6W/24V AC 230V 50Hz.
- Let at installere / Let at fjerne.
- Kraftig magnet gør den ekstremt stabil at installere og bruge.
- Temperaturbestandige bånd (+200°C) i 30mm & 50mm bredde – standardlængde 600mm.

Art.nr.	Kapacitet	Emb.
KAO30	3 liter/time	1
KAO50	5 liter/time	1

KABI Portable Oil Skimmer

Danish design - CE approved.

- Housing in aluminum 70mm x 70mm x 70mm.
- Power Supply 6W/24V AC 230V 50Hz.
- Easy to install / Easy to remove.
- Heavy force magnet makes it extremely stable to install and to operate.
- High temperature belts (+200°C) in 30mm & 50mm width – Standard length 600mm.

KAO30	3 liter/hour	1
KAO50	5 liter/hour	1

KABI Mobil Olie Skimmer med separator

Dansk Design - CE godkendt.

- Separerer emulsion og olie op til 99%. De 2 separerede væsker udskilles via hver deres udløb.
- Støbt aluminiumshus.
- Strømforsyning 6W/24V AC 230V 50Hz.
- Let at installere / Let at fjerne.
- Kraftig magnet gør den ekstremt stabil at installere og bruge.
- Temperaturbestandige bånd (+200°C) 30mm bredde – standardlængde 720mm.

KABI Doseringspumpe

KABI Doseringspumpe har en speciel funktion, der gør det muligt at justere blandingsforholdene mens den er i brug. Alle KABI Doseringspumper har et separat blandingskammer. Dette gør det muligt at undgå kemisk kontakt med pumpe motoren, hvilket igen giver en længere levetid for produktet og en fremragende blandingsproces. KABI Doseringspumpe leveres med et vægbeslag, en sugeslange med integreret filter og et sæt reservedele.

Art.nr.	Arbejdstryk	Mængde	Blandingsforh.
KA2200/10	1,0 - 4,5 bar	2200 ltr./t	2,0 - 10,0%
KA2700/5	0,5 - 9,5 bar	2700 ltr./t	1,0 - 5,0%

Bemærk:

KA2200/10 skal køre med en mængde på mindst 2 liter i timen for at virke korrekt.

KABI Piston Mixer

The KABI Piston mixer has a special feature, which makes it possible to adjust the mixing ratio during operations. All of the Piston mixers have a separate mixing chamber, which makes it possible to avoid chemical contact with the motor piston. The KABI Piston mixer is only driven by the water pressure. Comes with a wall bracket, a suction hose with integrated dirt strainer and a set of spareparts.

Art.#	Work pressure	Capacity	Mixing range
KA2200/10	1.0 - 4.5 bar	2200 ltr./h	2.0 - 10.0%
KA2700/5	0.5 - 9.5 bar	2700 ltr./h	1.0 - 5.0%

Note:

KA2200/10 must run at least 2 litres per hour to work properly.

Trykluftdrevet suge/tømme pumpe

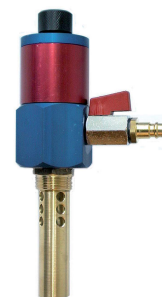

Pumpen er en dobbeltvirkende pumpe der både kan suge og tømme, ved blot at skrue på en enkelt knap. Den bliver fortrinsvis brugt til at tømme tanke, tromler og sumpe på maskiner. Den har brug for ca. 8 bar, hvorefter den kan tømme/suge ca. 50-60 ltr./min. Pumpen er inkl. sugerør, quick connectors, 3 meter sugeslange og stigerør.

Art.nr.	Emb.
CL0321000	1

Power Vac pump

It is a dual acting suction and pressure pump that uses compressed air. It is mainly used for filling and emptying lubricant and coolant tanks. It requires approx. 8 bars. This makes it possible to fill or empty approx. 50-60 ltr./min. The following accessories are included with the Power Vac Pump: Ascending pipe, Threaded barrel connector 2", Fast-action connector, Feed hose 3 m, Suction pipe.

Art.#	Quantity
CL0321000	1

Maskintømmer type Dragin

Dragin kan anvendes til at tømme maskinsumpe, tømme tanke, lænse fra både og fartøjer, samt mange andre opgaver direkte over i et standard fad (excl.). Dragin har ingen bevægelige dele. Dragin leveres med vacuumpumpe (for 3/4"R hullet), overfyldningsventil, udstyr til opslugning såsom slange, fittings og mundstykke for (2"R hullet). Kapacitet ved vand 95 ltr./min. – ved 7bar. Kapacitet ved SAE30 olie 70 ltr./min. – ved 7bar.

Art.nr.	Emb.
40920	1

Dragin pump

Dragin is used to empty the machine sumps, empty tanks, bilge from boats and vessels as well as many other tasks directly into a standard drum (excl.). Dragin has no moving parts. Dragin is supplied with a vacuum pump (3/4" BSP-hole), overflow protection equipment to pick up such as hose, fittings and vacuum head of (2" BSP hole). Output if water 95 ltr./min. – at 7bar. Output if SAE30 oil 70 ltr./min. – at 7bar.

KABI Gevind skære pasta 100 ml

KABI pastaen er fremstillet af vand/sæbe og er meget velegnet til gevindskæring, stansning, fræsning og afkortning. Indeholder ej mineral olie, klor eller svovl. Efterlader ikke olieret overflade. Kan anvendes til alle metaller herunder også rustfrit stål.
Flammepunkt: >225°C.
Smeltepunkt: 32°C.
Neutral lugt.

Art.nr. Emb.

KA100100 1
KABI Thread cutting agent 100 ml

The KABI paste is a paste based on water/soap and is ideally used for thread-cutting, tapping, centring, removing and milling. It does not contain mineral oil, chlorine or sulfur. Does not leave oily surface.
Suitable for all metals – incl. stainless steel.
Flash point: >225°C.
Melting point: 32°C.
Neutral odour.
